

## Action plan 2017 – 2018

- Name of Professional Unit: **Library History Special Interest Group**

### Objectives of Professional Unit 2017-18:

- Libraries in Society** – Throughout their history, libraries have played an important role in building literate, informed and participative societies. By keeping our library history on the agenda we can continue to learn from our past to build our future.
- Information and Knowledge**- libraries have always been repositories of these and in celebrating and reminding people of library history we hope to continue this respect and reputation for libraries and promote the study and research in library history, as a contribution to the intellectual foundations of our profession.
- Cultural Heritage** - library history as such is part of that heritage. Safeguarding documentary cultural heritage as libraries have done in the past and should continue to do. Our library history tells us the stories of how this was done, why, and the challenges faced and the opportunities; Developing standards for the collection and preservation of content in its diverse forms as shown in the history of libraries and their diverse collections.
- Capacity Building** - Strengthening IFLA by building regional and sectoral capacity and participation across our activities by promoting the importance of libraries in the past, the present and to learn from these stories and experiences for the future.
