Notes on Field Contents

This field is intended for recording access points for family names used as subjects. These access points are structured in the same form as name access points for a family responsible for the content of a work or an expression and recorded in fields 52-. Subfield \$a includes the name of the family ~~and any qualification such as „(Family)“ or „(Clan)“~~. ~~Such qualification should retain their punctuation in the subfield.~~ Qualifying data are recorded in \$c, \$d and \$f.

This field can contain more than the name of the family in subfield \$a. In addition, terms may be added to the subject access point to further specify it with respect to form, topic, place or time. These follow the rules of the subject system used by the agency preparing the record.
