Indicator 2: blank (not defined)

Subfields

$a   Text of Note. Not repeatable.

$u   Uniform Resource Identifier (URI)

The Uniform Resource Identifier (URI), for example a URL or URN, which provides electronic access data in a standard syntax. This data can be used for automated access to an electronic resource through one of the Internet protocols. Subfield $u may be used when an electronic version of the image of a page(s) relevant to the provenance information is available (i.e., a digitized extract of the item described in the record, part of an electronic resource). Repeatable

$5   Institution to which the Field Applies

Name of institution to which field applies in coded form if it is considered necessary by the agency which create the record to identify specific attributes of an item.

If the subfield is used codes should be entered in accordance with the provisions of International Standard Identifier for Libraries and Related Organizations (ISIL), ISO 15511. (Existing records may contain codes from MARC Code List for Organizations, the full name of the agency or a national code.) If the institution holds more than one copy the shelfmark of the item should be added after a colon. Not repeatable.

$5   ~~Institution and copy to which the field applies~~

~~Name of institution to which field applies in coded form. Codes should be entered in accordance with the provisions of *International Standard Identifier for Libraries and Related Organizations* (ISIL), ISO 15511. (Existing records may contain codes from *MARC Code List for Organizations,* the full name of the agency or a national code). If the institution holds more than one copy the shelfmark of the item should be added after a colon; however, it is strongly recommended that this be done even if the copy is the only one held at the time of cataloguing. Mandatory. Not repeatable.~~

$6   Interfield Linking Data

This subfield contains information allowing the field to be linked for processing purposes to other fields in the record. This may be one of the 7X2 fields for former owners, donors, auctioneers, etc. Not repeatable.

The instructions for the use of this subfield form the first part of Section 3.13. $6/0 Linking explanation code will always have the value 'b' = Link associated with a copy, unless an alternative graphic representation or script is involved.

$8   Materials specified

Materials to which the field applies, if the information refers to part of the unit of description. Not repeatable.

Notes on Field Contents

It is expected that the record is made for the ideal copy. However, in this note field provenance of the copy in hand is described in the form in which it appears in the book, e.g. book-plates, author's and/or owner's autographs, seals, etc. Code of the institution to which the Provenance Note field applies is recorded in $5.

The field may be used to record custodial history of archival materials – information on transfers of ownership, responsibility and/or custody of the unit of description or its part. If the archival history is unknown, this fact may also be recorded in the field.
