

541 TRANSLATED TITLE SUPPLIED BY CATALOGUER

[...]

\$z Language of Translated Title

Coded identification of the language of a translated title. For codes use ISO 639-2 or other standard language code schema specified in subfield \$2. Not repeatable.

\$2 Source

An identification in coded form for the language code schema from which the code in \$z is derived, when the code is not from ISO 639-2. For a list of the language codes schemas, see Appendix A. Not repeatable.
